

# NOW BRIGHTNESS GETS AMBUJA'S GIANT STRENGTH

• Slag • Silicate • Stronger

Size - A5

## S&S Technology

Ambuja Compozem has been manufactured using S&S Technology, that keeps slag and silicate gel in perfect equilibrium. Slag imparts brightness, while silicate gel imparts higher strength.

## 20% higher strength

Due to S&S Technology, Ambuja Compozem gives 20% higher strength than any other cement, from day one.

## Ease-of-workability

Concrete made from Ambuja Compozem is very cohesive and smooth, which improves workability, and helps in speedy work.

## Extremely smooth and bright finish

The perfect balance of slag and silicate gel ensures a bright and superior finish.

## Tamper-proof packaging

Ambuja Compozem is packed in a special bag that:

- Is sealed and tamper-proof
- Is moisture-resistant
- Keeps the cement factory-fresh
